

New Directions in Rhetoric and Materiality

SERIES EDITORS

Barbara A. Biesecker, Wendy S. Hesford, and Christa Teston

Current conversations about rhetoric signal a new attentiveness to and critical appraisal of material-discursive phenomena. *New Directions in Rhetoric and Materiality* provides a forum for responding to and extending such conversations. The series is interested in monographs that pair rhetorical theory with an analysis of material conditions and the social-symbolic labor circulating therein. Books should offer a “new direction” for exploring the everyday, material, lived conditions of human, nonhuman, and extra-human life—advancing theories around rhetoric’s relationship to materiality.
